General Description:

Y10 to 500 watt-seconds stored, 7 to 350 watt-seconds delivered to 50 ohms, lown dc capacitor discharge type, 105-125 or 210-250 vac at 50/60 hz, automatic triggering by ecg option, energy discharge regulated by paddle electrode type used

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
