Design Designation:

Intravenous

Tip Type:

Molded microtaper

Connector Type:

Luer lock hub

Core Fabrication Method:

Not woven

Diameter:

16.000 gage

Needle Diameter:

16.000 gage

Needle Guard Length:

2.500 inches

Needle Length:

2.500 inches

Material And Location:

Plastic, polytetrafluoroethylene catheter and steel, corrosion resisting needle and plastic needle guard and plastic sleeve and plastic stylet and plastic valve

Features Provided:

Sterile and disposable and x-ray opacity

Special Features:

Radiopaque; 26 in. Lg; 14 gage introducer catheter; unit qty, 20; individually sealed; needle removable from assembly during intravenous or cardio-vascular-pulmonary monitoring

Style Designator:

Intravenous catheter and needle unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
