Portability:

Portable

Product Name:

Pump intravenous infusion prtble volumetric battery operated 6v

Voltage In Volts:

6.0

Special Features:

Volumetric; battery operated; battery oper 40 hours at 125 ml per hr out-put on single charge; may be recharged from 5 watt, 115 v, 60 hz, ac while pump is oper; flow adj from 1 to 299 ml per hr in 1 ml incr; capable of delivering both clear and opaque fluids; w/audible and visible air-in-line alarm; visible low battery alarm oper 1 hr prior to required recharge, occlusion alarm indicating occluded tubing or clogged filter and audible infusion completion alarm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
