Design Designation:

Intravenous

Tip Type:

Short bevel

Connector Type:

Female luer lock or female luer slip

Catheter Length:

2.000 inches

Material And Location:

Plastic hub and steel, stainless needle and plastic, polypropylene catheter and plastic, fluorinated ethylene catheter pr plastic, propylene catheter

Product Name:

Catheter & ndl unit d12 iv 20 gage x 2" cath radpq short bevel tip 50s

Special Features:

Radiopaque, nontoxic, pyrogen-free, 20 gage by 2 inch catheter with a self-vented chamber; an indwelling catheter for use in administration of intravenous fluids from a single veinipuncture in preoperative and post-operative treatment; plastic catheter and needle hubs provides a leakproof fit; 50 catheters per package

Style Designator:

Intravenous catheter and needle unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
