General Description:

110 volts; 60 hz.; ac; operates with cold tap water. Consists of dialysate delivery control module with proportioning pump system; vacuum air removal system; negative pressure pump and gauge; adjustable dialysate flow rate (350 to 600 ml./min); conductivity monitor and temperature sensing with high and low alarms; rinse system; blood leak detector; drip chamber blood level detector; venous pressure i monitor (minus 50 to plus 300 mmhg); arterial pressure ii monitor (minus 150 to plus 150 mmhg); dialysate bypass system; power-off alarm; mute; hour meter; 2 iv poles; dialyzer hook-up assembly; drip bulb holders; side-mounted 3 gal. Concentrate container. An isolation transformer is included for low leakage current.
