Body Material:

Plastic

Filtering Surface Area:

1.6 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

789.0 milliliters

Dialyzer Element Form:

Plate

Membrane Thickness In Microns:

11.5

Special Features:

89 ml., blood volume; 700 ml., dialysate volume

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T117-e
