Body Material:

Polystyreneacrylonitril

Filtering Surface Area:

1.2 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

180.0 milliliters

Dialyzer Element Form:

Hollow fiber

Membrane Thickness In Microns:

8.0

Product Name:

Dialyzer hemodialysis appar 180ml cap 1.2 sq mr 9900 fiber qty16

Special Features:

9900 fiber quantity; cuprophan membrane; 80 ml. Blood volume, 100 ml. Dialysate volume; polyurethane potting material; polycarbonate header; silicone gasket; color coded orange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T117-e
