Body Material:

Plastic

Filtering Surface Area:

1.1 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

76.0 milliliters

Dialyzer Element Form:

Hollow fiber

Membrane Thickness In Microns:

11.0

Special Features:

10 inches long; approx. 1-1/4 in. Dia.; packed dry; unit q type 12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T117-e
