Body Material:

Plastic

Filtering Surface Area:

0.9 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

150.0 milliliters

Dialyzer Element Form:

Hollow fiber

Special Features:

21.5 cm long, 7.7 cm wide; blood volume 75 ml, dialysate volume 75 ml ; high performance model for patients needing an increased fluid removal capacity

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T117-e
