**Body Material:**

Plastic

**Filtering Surface Area:**

1.4 square meters

**Sterility:**

Sterile

**Disposition After Initial Use:**

Disposable

**Capacity Accommodated:**

259.0 milliliters

**Dialyzer Element Form:**

Hollow fiber

**Special Features:**

Blood volume 109 ml, dialysate volume 150 ml; high performance model for use with patients who have an increased need for fluid removal

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T117-e
