Usage Design:

Designed for recording leading off potentials from sensory nerves

Material And Location:

Steel, corrosion resisting

Product Name:

Needle electromyography 26gax1.25" autocl conc needle electrode

Special Features:

Needle size: 0.45 by 30 mm; needle size gage: 26 by 1-1/4 in.; 0.07 mm platinum surface; muscle action is picked up by tip of platinum wire with the cannula as the indifferent electrode; for use in recording motor unit in skeletal muscles, spontaneous activity, indifference patterns and conduction velocity studies, autoclavable concentric needle electrode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A21800
