Design Designation:

House

Tip Type:

Open end

Material And Location:

Steel, corrosion resisting

Distal End Shape:

Blunt

Product Name:

Cannula ear house medium 4 x 2.5 fr blunt shape open end tip crs

Special Features:

Med; 4 by 2.5 fr; ea cannula w/2 stylets; thumb plate for suction pressure control near proximal curve; proximal end adaptable to suction tubing or male luer adapter; for constant or intermittent suction-irrigation during microscopic otologic procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
