**Overall Width:**

0.188 inches

**Handle Type:**

Rectangular

**Material And Location:**

Steel, corrosion resisting

**Blade Edge Type:**

Any acceptable

**Product Name:**

Chisel-adjustment instr femoral neck crs 0.188in w blade 8"lg

**Special Features:**

Blade dim 8 in. Lg; 1 in. Lg, 1/2 in. Dim; for preparation of the femoral neck in hip arthroplasty; used prior to insertion of the rasp, and after preparing the bed for the prosthesis stem

**Unit Of Issue Cube:**

0.001 cubic feet

**Unit Of Issue Weight:**

0.01 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-a
