Tip Type:

Open side and blunt point

Material And Location:

Steel, corrosion resisting

Eye Quantity:

2

Distal End Shape:

Oval

Product Name:

Cannula bronchial jackson 12fr open side & blunt end pt oval crs

Exterior Container Weight:

6.00 pounds

Exterior Container Cubic Measure:

0.097 cubic feet

Exterior Container Quantity:

1

Special Features:

Jackson; 12 fr; 20 cm lg from distal tip to proximal curve; closed rounded end; 4 mm dia; for aspirating bronchial secretions through a 5 mm diameter or larger bronchoscope

Unit Of Issue Cube:

0.001 cubic feet

Unit Of Issue Weight:

0.01 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
