**Tip Type:**

Open side and blunt point

**Material And Location:**

Steel, corrosion resisting

**Eye Quantity:**

2

**Distal End Shape:**

Oval

**Product Name:**

Cannula bronchial holinger 9fr 25cm lg oval distal end rigid crs

**Exterior Container Weight:**

6.00 pounds

**Exterior Container Cubic Measure:**

0.097 cubic feet

**Exterior Container Quantity:**

1

**Special Features:**

Hholinger; 9 fr; 25 cm lg from distal to proximal curve; knob at end of proximal curve for holding suction tube during use; for aspirating bronchial secretions through a 4 mm diameter or larger bronchoscope

**Unit Of Issue Cube:**

0.001 cubic feet

**Unit Of Issue Weight:**

0.01 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-c
