Overall Length:

58.000 inches

Overall Diameter:

0.035 inches

Tip Type:

Straight

Material And Location:

Steel, stainless

Product Name:

Guide catheter needle disp polytetrafluoroethylene coated 0.035" diameter 145 cm lg

Special Features:

Polytetrafluoroethylene coated fixed core; heparin coating; large diameter core with 15 cm flexible tip, distal 1 cm soft; sterile in peel-open packages; disposable; fits needle gage 18t

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-g
