Overall Length:

8.000 inches

Handle Type:

Solid

Blade Width:

0.500 inches

Handle:

Furnished

Blade Quantity:

1

Blade Shape:

Curved

Usage Design:

Used for cutting and sculpturing hard compact bone and harvesting cortical bone for grafting

Design Designation:

Smith-petersen, orthopedic

Material And Location:

Steel, corrosion resisting

Cut Type:

Coarse

Blade Edge Type:

Sharp

Self-retaining Feature:

Not provided

Features Provided:

Nonsterile

Product Name:

Osteotome curved 0.50" blade w smith-peterson dsgn stainless stl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-a
