Design Designation:

Philips

Shaft Eye Quantity:

1

Tip Type:

Threaded

Core Fabrication Method:

Woven

Diameter:

0.288 inches

Material And Location:

Fabric, woven body and metal tip

Product Name:

Catheter, urethral, philips, d9, straight, w/thread tip 0.288 inch dia, 12 inch length, nylon, 22 fr, sterile, single eye

Special Features:

Flex; polyester or nylon; 12 in.; integral metal tip on distal end permits attach to a filiform; flared proximal end to connect to syringe; capable of withstanding repeated sterilization by steam; ethylene oxide, or soaking in high level disinfectant solution

Style Designator:

Straight, w/ threaded tip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
