Design Designation:

Philips

Shaft Eye Quantity:

1

Tip Type:

Threaded

Core Fabrication Method:

Woven

Diameter:

0.315 inches

Material And Location:

Fabric, woven body and metal tip

Product Name:

Catheter, urethral, philips, b9, straight, w/thread tip 0.315 inch, 12 inch length, 24 fr, polyester nylon, sterile

Special Features:

Polyester or nylon; 12 in. Lg; integral tip on distal end permits atch to a filiform, flared proximal end to connect to syringe; capable of withstanding repeated sterilization by steam, ethylene oxide, or soaking in high level disenfectant solution

Style Designator:

Straight, w/ threaded tip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
