Thread Direction:

Right-hand

Head Style:

Fillister countersunk

Length:

38.1 millimeters

Material And Location:

Steel, corrosion resisting

Outside Thread Diameter:

3.9 millimeters

Point Type:

Fluted

Recessed Drive Style:

Cross recess type 11

Product Name:

Screw bone high torque extra strong 5/32in diameter by 1-1/2in long

Special Features:

Buttress thds; bechtol radial; cruciate head; material in accordance w/astm f138 grade 2

Supplementary Features:

High torque; extra strong; used in screw holes of plates inserted during orthopedic surgical procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
