Overall Length:

1.500 centimeters

Handle Type:

Double ring

Usage Design:

Used to grasp and retract the meniscus during arthroscopic procedures

Design Designation:

Arthroscopic

Product Name:

Forceps meniscus retracting 18.5cm working lg 1.50cm 0/a lg crs

Special Features:

Distal grasping tip; with slight upward curve and cross serrated with teeth at extreme distal end; 18.15 cm working length

Material And Location:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51710
