Design Designation:

Intravenous

Tip Type:

Open end

Core Fabrication Method:

Not woven

Material And Location:

Plastic, polytetrafluoroethylene

Features Provided:

Sterile and disposable

Special Features:

Yellow; 16 ga. X 2 in.; radiopaque polytetrafluoroethylene; unit q type 50

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
