Design Designation:

Arterial and venous prosthesis

Tip Type:

Round

Core Fabrication Method:

Not woven

Material And Location:

Plastic, polytetrafluoroethylene tube

Features Provided:

Sterile and disposable

Special Features:

6.0mm i.D.; 70cm long; straight; reinforced; autoclavable; resterilized steam or gas

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
