Surgical Suction Apparatus - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6515-01-180-6985

Current Type:
Ac
Accessory Components And Quantity:
Spare inlet valve, 1 ea; spare outlet valve, 1ea; spare gasket, 2 ea; operational and maintenance manual, 2 ea; 6 ft. Long tubing, 2 ea;
3.785 liter (1 gal.) bottle graduated in cubic centimeters, 1 ea.
Installation Design:
Mobile
Controlled Suction Source:
Included
Thermotic Type Feature:
Included
Product Name:
Suction apparatus surgical 120/230v 50/60hz ac portable ext elec
Voltage In Volts:
120.0 or 230.0
Special Features:
Solid state vacuum control system adjusted by a vacuum control switch to settings of 90 and 120 mm hg. Automatic overflow switch. 4 ball
bearing caster wheels, two of which are locking, for ease of mobility. Suitable for gastrointestinal decompression or suprapubic drainage.
Frequency In Hertz:
50.0 or 60.0
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:
No
Fiig:
T107-c
