Body Material:

Plastic

Filtering Surface Area:

1.4 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

209.0 milliliters

Dialyzer Element Form:

Hollow fiber

Special Features:

Blood volume 109 ml., dialysate volume 100 ml.; moderate ultrafiltration model

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T117-e
