**Design Designation:**

Nasal rae and tracheal

**Shaft Eye Quantity:**

1

**Inflation Device:**

Self-sealing plug

**Tip Type:**

Beveled

**Core Fabrication Method:**

Not woven

**Diameter:**

6.000 french

**Material And Location:**

Plastic, polyvinyl chloride

**Product Name:**

Tube tracheal nasal plastic sterile disp 10s

**Special Features:**

Low pressure cuff; attached pilot balloon; murphy eye; i.D. 6.0mm; length from distal tip; center of bend 26.0cm; to naris 25.0cm; proximal edge of cuff 4.6cm; radiopaque line; unit q type 10

**Style Designator:**

Tracheal w/ cuff

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A22100
