Design Designation:

Nasal rae and tracheal

Shaft Eye Quantity:

1

Inflation Device:

Self-sealing plug

Tip Type:

Beveled

Core Fabrication Method:

Not woven

Diameter:

6.000 french

Material And Location:

Plastic, polyvinyl chloride

Product Name:

Tube tracheal nasal plastic sterile disp 10s

Special Features:

Low pressure cuff; attached pilot balloon; murphy eye; i.D. 6.0mm; length from distal tip; center of bend 26.0cm; to naris 25.0cm; proximal edge of cuff 4.6cm; radiopaque line; unit q type 10

Style Designator:

Tracheal w/ cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
