Current Type:

Ac

Accessory Components And Quantity:

Atomizers 2, blower powder 1; syringe 1; nebulizer 1; cotton jars 2; bottles solution amber 6; bottles solution cleaner 6; otoscope handle and coiled cord with a diagnostic head, operating head and fiberoptic

Major Component And Quantity:

Cabinet unit 1; compressor module, self-contained 1; includes two compressors; filter 1; trap bottle 1; gauge 1; footswitch 1; panel air and electrical 1

Product Name:

Operating apparatus ear nose and throat mobile 115v 50/60hz ac

Voltage In Volts:

110.0

Phase:

Single

Special Features:

Cabinet unit mounted on casters; with isolation transformer for varying voltages 220 volts capability

Frequency In Hertz:

50.0 or 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-f
