Ear-nose And Throat Operating Apparatus - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6515-01-204-2671

Current Type:
Ac
Accessory Components And Quantity:
Atomizers 2, blower powder 1; syringe 1; nebulizer 1; cotton jars 2; bottles solution amber 6; bottles solution cleaner 6; otoscope handle
and coiled cord with a diagnostic head, operating head and fiberoptic
Major Component And Quantity:
Cabinet unit 1; compressor module, self-contained 1; includes two compressors; filter 1; trap bottle 1; gauge 1; footswitch 1; panel air
and electrical 1
Product Name:
Operating apparatus ear nose and throat mobile 115v 50/60hz ac
Voltage In Volts:
110.0
Phase:
Single
Special Features:
Cabinet unit mounted on casters; with isolation transformer for varying voltages 220 volts capability
Frequency In Hertz:
50.0 or 60.0
Shelf Life:
N/a
Unit Of Measure:
<del></del>
Demilitarization:
No
Fiig:
T107-f
