Design Designation:

Intravenous

Tip Type:

Beveled

Core Fabrication Method:

Not woven

Diameter:

22.000 gage

Needle Diameter:

25.000 gage

Catheter Length:

1.000 inches

Material And Location:

Plastic, polytetrafluoroethylene catheter

Special Features:

Individual package; 120 per case

Style Designator:

Intravenous catheter and needle unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
