Design Designation:

Murphy

Tip Type:

Beveled

Core Fabrication Method:

Not woven

Diameter:

16.000 french

Material And Location:

Plastic, polyvinyl chloride

Product Name:

Tube tracheal murphy 16 fr plas ster disp pediatric size w/conn 10s

Special Features:

Pediatric size; w/connector; i.D. 4mm; heat-sensitive; smooth; thin wall construction; kink-resistant; self-sealing valve; individually packed; unit q type 10

Style Designator:

Tracheal w/0 cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
