Design Designation:

Murphy

Shaft Eye Quantity:

1

Inflation Device:

Pilot balloon

Tip Type:

Open end

Patient Size Designation:

Child

Diameter:

2.5 millimeters

Material And Location:

Plastic, polyvinyl chloride tube

Product Name:

Tube tracheal murphy e11 2.5mm diameter child w/15mm conn 10s

Special Features:

W/15mm connector with size marking; w/inflation valve w/luer taper; firm for intubation; for oral or nasal use; unit q type 10

Style Designator:

Tracheal w/0 cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
