Design Designation:

Mocardial sensor

Disposition After Initial Use:

Disposable

Material And Location:

Plastic polyvinyl chloride tubing and thermocouple wire

Features Provided:

Sterile

Special Features:

Needle: 22 guage; pencil point tip; 18mm long; flexible; needle at right angle to needle hub; 6 ft lead wire; sensor length 60 inches; for monitoring temperature changes of the myocardium/direct temperature readout

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-g
