Design Designation:

Murphy

Inflation Device:

Self-sealing valve

Tip Type:

Beveled and smooth

Core Fabrication Method:

Not woven

Diameter:

10.000 french

Material And Location:

Plastic, polyvinyl chloride

Product Name:

Tube tracheal e11 murphy 10 fr beveled self sealing valve 10s

Special Features:

2.5mm i.D. W/15mm connector; pediatric; thin wall construction; kink-resistant; tip-to-tip x-ray line; luer tip syringe; individually packed; unit q type 10

Style Designator:

Tracheal w/0 cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
