Design Designation:

Nasal

Tip Type:

Beveled

Material And Location:

Silicone rubber

Product Name:

Catheter nasal epistaxis silicone w/2 contour-inflation balloons

Special Features:

Epistaxis; w/two contouring inflation balloons; working length 4-7/8 in.; 15 fr lumen, wall thickness 1 mm; distal balloon 10 cc, proximal balloon 30 cc; individually controlled resistant to clot adherence; for use in controlling nasal hemorrhage w/minimal tissue necrosis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
