Design Designation:
Nasal
Тір Туре:
Beveled
Material And Location:
Silicone rubber
Product Name:
Catheter nasal epistaxis silicone w/2 contour-inflation balloons
Special Features:
Epistaxis; w/two contouring inflation balloons; working length 4-7/8 in.; 15 fr lumen, wall thickness 1 mm; distal balloon 10 cc, proximal
balloon 30 cc; individually controlled resistant to clot adherence; for use in controlling nasal hemorrhage w/minimal tissue necrosis
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A22100
