Design Designation:

Oral

Shaft Eye Quantity:

2

Tip Type:

Beveled and abrupt angle curved

Core Fabrication Method:

Not woven

Patient Size Designation:

Infant

Diameter:

3.5 millimeters

Material And Location:

Plastic, polyvinyl chloride tube

Product Name:

Tube trachealoral e11 w/o cuff 3.5mm diameter infant ster disp 10s

Special Features:

W/15mm connector; may be straightened for tracheal suctioning; individually packed; unit q type 10

Style Designator:

Tracheal w/0 cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
