Casehardening Indicator:

Not casehardened

Head Diameter:

9.0 millimeters

Length:

25.0 millimeters

Material And Location:

Titanium

Product Name:

Screw bone titanium o/a 9mm head diameter 25mm lg kurosaka design

Special Features:

Kurosaka fixation design; used for anterior ligamate repairs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
