Casehardening Indicator:

Not casehardened

Head Diameter:

9.0 millimeters

Length:

30.0 millimeters

Material And Location:

Titanium

Product Name:

Screw bone kuraska fixation design 30mm lg 9mm diameter titanium

Special Features:

Sterile; kurosaka; designed for anterior ligament repairs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
