Blade Shape:

Tapered

Design Designation:

Cook

Material And Location:

Plastic, polytetrafluoroethylene blade

Size Designator:

7 fr

Err Default:

Err default

Adjustment Gage:

Not provided

Product Name:

Dilator blood vessel percutaneous catheterization cook 7fr sterile

Special Features:

Radiopaque; disposable; sterile; 0.092 in od; 0.041 in. Id; w/female luer lock hub for infusion of fluids and pressure monitoring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-a
