Unit Package Quantity:

10

Design Designation:

Oral and rae

Shaft Eye Quantity:

2

Inflation Device:

Pilot balloon and self-sealing valve

Tip Type:

Round

Core Fabrication Method:

Not woven

Diameter:

5.0 millimeters

Material And Location:

Plastic

Features Provided:

Clear

Product Name:

Tube tracheal oral rae e12 with cuff 5mm diameter tip to tip radpq 10s

Special Features:

Tip-to-tip radiopaque line; individually packed

Style Designator:

Tracheal w/ cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
