Body Material:

Styrenebutadiene

Diameter:

9.5 millimeters

Tubing Inside Diameter Accommodated:

0.19 millimeters

Err Default:

Err default

Product Name:

Valve resuscitator styrenebutadiene compatible w/8008/8020 6s

Special Features:

Eadjustable; disposable; must be compatible with 8008 adult resuscitator and 8020 pediatric resuscitator; used to ventilate patients during emergency resuscitation; 0-200cmh20.6 per case; unit q type 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T117-a
