Casehardening Indicator:

Not casehardened

Head Diameter:

9.0 millimeters

Length:

20.0 millimeters

Material And Location:

Tantalum

Surface Treatment And Location:

Any acceptable

Product Name:

Screw bone tantalum 20mm lg 9mm diameter not casehardened 9 inch pin

Special Features:

Sterile; kurosaka interference fixation; self-tapping; headless; with 9 inch pin; designed for arthroscopic implant surgery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
