Casehardening Indicator:

Not casehardened

Head Diameter:

7.0 millimeters

Length:

30.0 millimeters

Material And Location:

Tantalum

Surface Treatment And Location:

Any acceptable

Product Name:

Screw bone tantalum 30mm lg 7mm diameter not casehardened 9 inch pin

Special Features:

Sterile; kurosaka interference fixation; self-tapping; headless; w/9 inch pin; designed for arthroscopic implant surgery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
