Casehardening Indicator:

Not casehardened

Head Diameter:

9.0 millimeters

Length:

25.0 millimeters

Material And Location:

Tantalum

Surface Treatment And Location:

Any acceptable

Product Name:

Screw bone tantalum 25mm lg 9mm head diameter not casehardened 9" pin

Special Features:

Sterile; kurosaka interference fixation; self-tapping; headless; w/9 inch pin; designed for arthroscopic implant surgery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
