Casehardening Indicator:

Not casehardened

Head Diameter:

7.0 millimeters

Length:

20.0 millimeters

Material And Location:

Titanium

Surface Treatment And Location:

Any acceptable

Product Name:

Screw bone 20mm lg 7mm head diameter headless self-tapping w/9" pin

Special Features:

Sterile; kurosaka interference fixation; self-tapping; headless; w/9 in. Pin; designed for arthroscopic implant surgery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-m
