End Application:

For use with field anesthesia apparatus, nsn 6515-01-457-1840, narkomed and nsn 6515-01-564-6213, tiro m.

Unit Package Type:

Package

Accessory Components And Quantity:

Y and elbow with luer lock 1; hoses 2; 3 litter bag 1; bacterial viral filter 1; machine cuff 1; sampling line 10 ft 1; face mask adult 1

Tube Diameter:

22.0 millimeters

Features Provided:

Disposable

Tubing Length:

40.000 inches

Product Name:

Tube assembly gas anes apparatus nonconductive 22mm diameter 40" lg 20s

Special Features:

For delivering and expelling gas to and from patient during general anesthesia; if subject is not stored in cce for a month or more, then the shelf life shall be cut in half; destruction after 60 months

Material:

Plastic, polyethylene

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T087-a
