Design Designation:

Blood collecting

Tip Type:

Luer slip

Plunger Material:

Rubber, natural

Barrel Material:

Plastic, polypropylene

Scale Smallest Increment:

0.210 minims

Capacity:

3.000 cubic centimeters

Barrel Tip Design:

Any acceptable

Features Provided:

Disposable

Special Features:

Sterile; individual package; with needle stopper; approx. 100 units attached dry lithium heparin pellets in the syringe barrel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-b
