Unit Package Quantity:

12

Design Designation:

Abbott-rawson

Shaft Eye Quantity:

2

Inflation Device:

Valve

Tip Type:

Round

Core Fabrication Method:

Not woven

Diameter:

10.000 french

Material And Location:

Silicone rubber and plastic, polytetrafluoroethylene

Features Provided:

Sterile and disposable

Special Features:

Pediatric; 3cc

Style Designator:

Modified retention

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
