Body Material:

Plastic, polysulfone

Filtering Surface Area:

1.8 square meters

Sterility:

Nonsterile

Disposition After Initial Use:

Reusable

Dialyzer Element Form:

Hollow fiber

Special Features:

F80 artificial kidney; use with fresenius a2008 series; unit q type 10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T117-e
